There is so much space both inside and out in this wonderfully built traditional home situated on over a half acre fenced in yard close to schools, shopping and the interstate. Enjoy the spacious floor plan with so many room options including a downstairs office suite with full bath that can very easily become your sixth bedroom guest suite if needed! The large open concept kitchen has a wonderfully sized eat-in dinette area with bay window open to the family room with cathedral ceiling, gas fireplace and beautiful built-in shelving. As you walk in to the kitchen from the formal dining room you pass through the butlers pantry which is perfect for serving food on holidays and those evenings you entertain. The oversized laundry room off the garage is a plus! Access to the second level of this home is enhanced by two staircases, one more formal than the other as you walk in the front door and the other right behind the kitchen for your family's convenience. The five bedrooms upstairs are such a great size especially the primary with sitting area and bath that has a new custom oversized shower. Enjoy the beautiful and private fenced in backyard with palm trees, the approximate three year old in-ground salt water pool and a recently re-done deck with the new Trex technology that will last for many years to come! A "must-see" on a very quiet, quaint and pretty street in Vintage Place!
