You'll love this fabulous one-level home situated on a large, waterfront lot with phenomenal lake views. It's as if you're living on a houseboat! Imagine water views from the front & the back of the property. The traditional, yet somewhat contemporary architecture, provides a light-filled, spacious open floor plan. The minute you enter the home through the front door, experience vaulted ceilings, and spacious living/dining areas with a unique stone fireplace. The open one-of-a-kind kitchen features stainless steel, maple wood and glass cabinetry, quartz countertops and an expansive island/bar. Tall Anderson windows/doors access the charming deck that invites entertainment while overlooking the lawn & panoramic views of the lake. The split floorplan includes a large primary suite with remodeled bathroom, double sinks and walk-in shower. There are 3 additional large bedrooms, shared full bathroom and powder room for guests. There are many upgrades including bathrooms, new roof in 2024, new HVAC 2019 and newly refinished old heart pine flooring throughout the house. There is so much to love about this property in one of Columbia's most sought-after locations!
