Finding a home with not one but two shops is hard to find and this property has it! One of the shops was installed in 2021, has 2 bays and a lean to off the back that is covered. Electrical pole installed for a camper or an additional building on the left side of the property if you are facing it. This home has a great layout with a large den and fireplace and just off the den is a huge kitchen with eat in breakfast area, granite countertops, stainless steel appliances, and laundry room. Kitchen also features recessed lighting, subway tile backsplash and a work island. Master bathroom has nice tiled shower, jet tub, and a nice sized walk in closet. Large deck is located off the kitchen and there's a huge fenced in backyard area. This type of property doesn't come along often and is sure to be in demand!
